

Welcome to the Ciao Paolo newsletter. The aim of this newsletter is to keep our patients updated on the events and changes going on at the practice.

In this newsletter you will find details of our new staff, new services that we offer, and reminders of services that we have always done that you may have forgotten about.

In this newsletter we hope to present the friendly face of the practice to encourage you to come and visit us.

NEW and RETURNING STAFF

We would like to welcome our new dentist Catriona Beattie to the practice. Catriona graduated from the University of Glasgow in 2002. Catriona went to Jordanhill school and lives here too. She is delighted to be working in the community she knows so well. Catriona has completed further post graduate training in recent years in dental implants, sedation and facial aesthetics. She has always been drawn to the cosmetic aspects of dentistry and enjoys using the fabulous techniques and materials available today to make a positive difference to the smiles of her patients.

We would like to welcome Lisa Kelly our new Hygienist to the practice. Lisa qualified as a Hygienist from Glasgow Dental School in 1994 and has enjoyed working in both Private and NHS practices for the last 25 years. She has gained a lot of experience over this time, developing her skills in treating and preventing dental disease. Lisa strives to offer her patients the best care possible in a welcoming and relaxed environment.

We are also delighted with the return of Roslyn one of our dental nurses whom I'm sure you will all remember. Roslyn left the practice last year to work elsewhere but we are happy that she has decided to return to Ciao Paolo.

TOOTH WHITENING OFFER

Many of you have had tooth whitening carried out, many more are considering this. We have promotional tooth whitening offer running until 1/12/18, treatment must be booked by this date. Normal price £295 offer price £175. Please note only a dental examination can determine whether you are suitable for this treatment. You may also be surprised to hear that only dentists are legally entitled to carry out this treatment.
